

Courtesy Pay Request Form

What you need to know about overdrafts and overdraft fees

An overdraft occurs when the available balance in your account isn't enough to cover a transaction, but as a service to you we pay it anyway. The available balance is your account balance minus any holds and/or pending transactions. This notice explains our standard overdraft practice and our other overdraft protection options.

Courtesy Pay: Our standard overdraft practice, known as Basic Courtesy Pay, comes with your account. We also offer Complete Courtesy Pay which includes additional coverage and requires you to opt-in. With both options, we may cover the overdraft and charge your account a Courtesy Pay fee. A fee is charged only if Courtesy Pay is accessed.

Automatic Transfers: We also offer other overdraft protection options, such as a link to a savings account, which may be less expensive than Courtesy Pay. To learn more, ask us about available options.

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

Basic Courtesy Pay: Extended 60 days after account opening to all eligible checking accounts. This is our standard overdraft practice that comes with your account, unless you have opted out.

With Basic Courtesy Pay, we do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Automatic payments (ACH) and other electronic funds transfers

With Basic Courtesy Pay we do not authorize and pay overdrafts for the following types of transactions:

- Everyday debit card transactions
- ATM transactions

Complete Courtesy Pay: Extended 60 days after account opening to all eligible and opted-in checking accounts. Includes everyday debit card and ATM transactions.

By opting-in to Complete Courtesy Pay, we do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Automatic payments (ACH) and other electronic funds transfers
- Everyday debit card transactions
- ATM transactions
